DERMASAVER KNUCKLE PROTECTOR

■ BY MARY SKARTVEDT, RN

Before DermaSaver Knuckle Protectors were applied.

BEFORE USING DERMASAVER KNUCKLE PROTECTOR

9/14/07

AFTER 4 DAYS USING DERMASAVER KNUCKLE PROTECTOR

9/18/07

9-18-07: Bruise on left hand fading. At present no new bruising noted.

9-25-07: Healed hand. Resident is now able to remove Knuckle Protector. Staff will place on hands when observed to be busy "fishing or throwing dice".

Range of motion on fingers has improved due to DermaSaver working as a palm protector and heat to joints.

AFTER 11 DAYS USING DERMASAVER KNUCKLE PROTECTOR
